

JONT - Old Traveller Album Lyrics

JONT | Old Traveller

BEFORE YOU

Before you, before you, before you, I don't know how I made it through
Before you, before you, before you
Ever since I met you,
My whole world has changed been re-arranged
Sunlight's the same through my window
But it feels so much warmer now, yeah I don't know how but I made it through
Before you, before you, before you, I don't know how I made it through
Before you, before you, before you

Oh give in to the love you've always been bursting to really know
Float up in to the world you were born in, right here, now, you, again
Float up in to another story and watch your life begin!
Oh oh oh oh oh and watch your life begin!

Now the season's finally right, I'm gonna show you a bruise
I been so keen to hide, and we'll stay up all the night blowing each other's
Candles out been burning us all our lives and when we're finally through
I won't need to look at you, I'll just feel you and know it's true -

Oh give in to the love you've always been bursting to really know
Float up in to the world you were born in, right here, now, you, again
Float up in to another story and watch your life begin!
Oh oh oh oh oh and watch your life begin!

Before you, before you, I don't know how I made it through

THE WAY HOME

Everyone wanna be loved, everyone wanting a home
Everyone wanting to touch, everyone wanting to know
I've seen a lot of things, I haven't reached the end
But along the way you forget how to ease your soul
So come with me my friend, it's time now to begin
To feel it again, to find the way, to find the way home
To find the way home

Something is breaking your heart, something is breaking your bones
Trying to make a new start, trying to make it alone
You've seen a lot of things you haven't reached the end
But you haven't found a way that you can ease your soul
So come with me my friend, it's time now to begin
To feel it again, to find the way, to find the way -

Don't let go! Can't you feel it coming in
I feel so loving 'til the end
Now I know! It's never too late to begin

I thought I reached the end, but I just found the way,

I just found the way home, I just found the way home

There's gonna be a change, not gonna feel the same
There's gonna be a day and it's coming soon
Not gonna be full of pain, tied to a wheel in the game
I'm gonna be like the rain, running home to you...

Don't let go! Can't you feel it coming in
I feel so loving 'til the end
Now I know! It's never too late to begin

I thought I reached the end, but I just found the way,

I just found the way home, I just found the way home

I've been down but I'll get up again, I ain't no clown I know I'm gonna win

Wipe your brow and dig your heels in

Good times are coming to make us jump again

Jump for joy and jump for love

Gonna jump through the heavens below and above

Gonna feel the mystery of all history when you kiss me I can't get enough,

Enough, I just found the way home

THE ONLY ANSWER

We've all been giving up our power but we can get it back right now
Coming out from under this spell of separation
Now it's finally upon us don't doubt your hearts for they're what's brought us
To this ancient, ultimate, eventual realization -

The only answer, the only answer, the only answer is love
The only answer, the only answer, the only answer is love

We've all been so scared to be shamed for saying the things
Our hearts want to say living our lives from the place we're most proud of
But going through this time together each day it's becoming clearer
It's not whose side your on its just about waking up

Someday all our bodies are gonna die
Don't waste your whole life trying to work out why
Every breath you take is trying to show you and I
We're already here in heaven
Part of the eternal present
We've just got to learn one lesson, it's so so simple

If I put out my hand will you put out your hand?
Or will you just look down and walk on?
Could you be the first one to put down your gun?
Show the world how war is won...

The only answer, the only answer, the only answer is love
Took me so long to find out,
The only answer, the only answer, the only answer is love

Open your heart and the world opens too
Your love is the key to what we are going through
Open your heart and the world opens to you
Your love is the key to what we are going through

The only answer, the only answer, the only answer is love
The only answer, the only answer, the only answer is love

Someday your body's gonna die
Don't waste your whole life trying to work out why
Every breath you take is showing you and I
We're already here in heaven
Part of the eternal present
We've just got to learn one lesson, and it's so, so simple

HEALING HOLY GOLDEN FEELING

Healing holy golden feeling
Healing holy golden feeling
Now I spend all my days breathing
This healing holy golden feeling
Ah, ah ha, hmm hmm

Healing holy golden feeling
Healing holy golden feeling
Now I spend all my days breathing
This healing holy golden feeling
Ahhh ahhh ahhh
Yeah ahhh ahhhh ahhhh

Been in the wars you took a beating
Been in the wars you took a beating
Looks like you could do with breathing
This healing holy golden feeling
Ahhh ahhhh aaahhh
Ahhh ahhhh ahhhh

THANK YOU FOR MY HAPPINESS

....Thank you for my happiness

Thank you for my happiness, thank you for my happiness,

Thank you for my happiness, thank you for my happiness

Thank you thank you thank you thank you thank you for my happiness...

Thank you for my happiness, thank you for my happiness

Thank you for my happiness, thank you for my happiness,

Thank you for my happiness, thank you for my happiness

Thank you thank you thank you thank you thank you for my happiness...

Don't know where it comes from but it takes me over

Leaves me feeling broken and totally hopeless

You just took a moment said we'll face this together

Now I feel so free and open I'll love you forever I'll love you forever

Thank you for my happiness, thank you for my happiness

Thank you for my happiness, thank you for my happiness,

Thank you for my happiness, thank you for my happiness

Thank you thank you thank you thank you thank you for my happiness...

Sweetheart it's true don't you feel it too?

Sometimes it's just a maze you're in look where we are now!

Don't you feel amazing? I think we've worked it out,

I think we've worked it out, I think we've worked it

Now I see the new day silence in my head again

Birdsong celebrating light chased the darkness away again

Always here the whole time need so much reminding

I showed you my darkest secret you just stood right by me

Yeah you just stood right by me you just stood right by me....

Sweetheart it's true (thank you for my happiness) don't you feel it too?
Sometimes it's just a maze you're in look where we are now!
Don't you feel amazing? I think we've worked it out,
I think we've worked it out, I think we've worked it

Just feeling the sweetest notes the sweetest gold
The sweetest old, loving spirit of devotion
Just wanna hold you close never let you go
Feeling the sweetest old loving spirit of devotion,
Loving spirit of devotion, loving spirit of devotion

(Ohhs, thank you for my happiness...)

FEEL SO FINE

Can't seem to shake this feeling of well-being
Even though it don't seem right
When this whole world is crumbling in to pieces
And I feel so fine

Sometimes confusing to know what you should do
You can feel guilty for your smile
Just remember what you've been put on earth to do,
Get up and let your love shine

Yeah yeah have you seen what you do to me? Yeah I feel so fine
Yeah yeah have you seen what you do to me? I feel so fine
Bah bah bahhhh I feel so fine

This virus of fear has been around for years and years
It's nothing we haven't seen
Shaped everything we know but there is the perfect antidote
It lives inside you and me

Yeah yeah have you seen what you do to me? Yeah I feel so fine (bah bah..)
Yeah yeah have you seen what you do to me? I feel so fine
(Bah bah bah)

'Cause we've all been dying from the day we were born
So move a little closer you could keep me warm

Yeah yeah have you seen what you do to me? Yeah I feel so fine (bah bah..)
Yeah yeah have you seen what you do to me? I feel so fine
Bah bah bah bahhhhhh I feel so fine
Hmm hmm hmm hmmm. I feel so fine
I feel so fine I feel so fine....

GENTLE WARRIOR

You are who you are, gentle warrior
You are who you are, Oh gentle warrior

Know who you are
Know who you are
Know who you are
Know who you are

STEP INTO THE FEAR

Step into the fear you know this love will hold you
Cracks appear you let them pass right through you
All these years you've held on to a story
Now it's clear there's so much more out there

You're free you're free you're free
You're free you're free you're free

Pain is never easy telling you you're not good enough
You should just give up, don't you think it's time you showed 'em
What they're really dealing with? Well, I guess this is it...

Step into the fear you know this love will hold you
Cracks appear you let them pass right through you
All these years you've held on to a story
Now it's clear there's so much more out there

Open up your wings your time has come to
Show them you're not afraid to make your way
So long you been watching all the others fly
Now it's your turn to leap up out in to the sky!

Baby Bird! You're free you're free you're free
Baby Bird! You're free you're free you're free

Pain is never easy but do you think it's just an accident
You're here in this moment? Don't you wanna make the best of
This miracle that you have got? You got the key now put it in the lock and

Open up your wings your time has come to
Show them you're not afraid to make your way
So long you been watching all the others fly

Now it's your turn to leap up out in to the sky!

Baby Bird! You're free you're free you're free

Baby Bird! You're free you're free you're free

Baby Bird! You're free you're free you're free

Baby Bird! You're free you're free you're free

And there's nothing here, there's no part of you

That you can't love that you can't love

So Step in to the fear you know this love will hold you

Cracks appear you let them pass right through you

THIS HAPPENED, I'M SORRY

When will I learn, when will this all change?
When will these moments in the light turn to better days?
When will these things I've done not fill my heart with shame?
When will I get given a chance to live in love again?

Because it's so hard I still feel so hurt
And I just wanna love you

The way I did before we did the things we had to do
And we spiralled in to war and all the pain that we've been through
I didn't come here to take away anything that you'd got
Like you I was a clueless scratch-free soul on a conveyor belt wanting to be
Loved, just another newborn screaming soul
On a conveyor belt wanting to be loved

And it's so hard I still feel so hurt
And I just wanna love you

The way I did in the crazy dream I had the other night
We were in a car driving somewhere when suddenly we realized
We weren't the enemies we thought we were, we were on the same side
And we were hugging and crying and saying things we'd never say in real life
Yeah we were hugging and crying and saying things we'd never say in real life

When will I learn, when will this all change?
When will these moments in the light lead to better days?
When will these things I've done not fill my heart with shame?
When will I get given a chance to live in love again?

Because it's so hard I still feel so hurt
and I just wanna love you

So I'm gonna ask for something I've never been brave enough to ask for before.

And It will be real and we can heal right here in this song
I'll be so overflowing with my love if you can say these words,
Like magic it will change everything, I will be seen you will be heard -

This happened (this happened), I'm sorry (I'm sorry)
This happened (this happened), I'm sorry (I'm sorry)
This happened (this happened), I'm sorry (I'm sorry)
This happened (this happened), I'm sorry (I'm sorry)
This Happened (this happened) I'm sorry (I'm sorry), I'm sorry (I'm sorry)
I'm sorry (I'm sorry)....

Now I can love you again
Now I'm gonna hold you 'til the end
I'm gonna love you

The way I did before we did the things we had to do
And we spiralled in to war and all the hurt that we been through
Yeah I didn't come here to take away anything that you'd got

Like you I was a clueless scratch-free soul on a conveyor belt wanting to be
Loved just another newborn screaming soul
On a conveyor belt wanting to be loved

Like you I was a clueless scratch-free soul on a conveyor belt wanting to be
Loved, just another newborn screaming soul
On a conveyor belt wanting to be loved

OLD TRAVELLER

I'm just an old traveller working on some old news
Just an old traveller feeling it as it comes through
Like going back in time feeling it all again
Took so long to realize - soon this too will end, old traveller
Soon this too will end, old traveller

It might be something from years years before or something you
Thought you had an answer for
You can let go
Something from years ago now here it is again just saying hello,
Hello. You can let go
Then one day it takes you like a surprise when for so many years it's been there
Right in front of your eyes only thing to do is give in with grace
To the warmth and the beauty of the tears on your face and know

You're just an old traveller working on some old news
Just an old traveller feeling it as it comes through
Like going back in time feeling it all again
Took so long to realize - soon this too will end, old traveller
Soon this too will end, old traveller
You can let go, you can let go

You're just an old traveller working on some old news
Just an old traveller feeling it as it comes through
These feelings never die, always changing like the wind
Took so long to realize - soon this too will end, old traveller
Soon this too will end, old traveller

We're all on this open broken road together
Take my hand and hold on we can get through any weather

We're all on this open broken road together
Take my hand and hold on we can get through any weather

KEEP ON

Ahaa ah aha! Ahaa ah aha! Ahaa ah aha! Oh keep on! Aha ah aha!
Ahaa ah aha! Don't you feel it coming in again?
Ahaa ah aha! When there are no words to sing! Ahaa ah aha!
You just keep on! Ahaa ah aha!

Keep on! Gonna keep on with this real embrace
Gets better each day, yeah keep on burning feel that holy flame
It's there to keep us all warm

When the star there for you was born
You were there now you still carry on!
Keep sitting there through every feeling
One day you'll wake up and find all your pain
Has left your body and you've finally moved on -

Keep on! Keep on rolling down this groove so smooth and so sweet
Feel your freedom! Don't let no-one take it away it's what makes you you!

When the star there for you was born
You were there now you still carry on!
Keep sitting there through every feeling
One day you'll wake up and find all your pain
Has left your body and you've finally moved on -
To when the star there for you was born

Ahaa ah aha! Ahaa ah aha! Ahaa ah aha! Oh keep on! Aha ah aha!
Ahaa ah aha! Don't you feel it coming in again?
Ahaa ah aha! When there are no words to sing! Ahaa ah aha!
You just keep on! Ahaa ah aha! You just keep on
Ahaa ah aha! There it is coming in again
Ahaa ah aha! When there are no words to sing, Ahaa ah aha!
You know you can keep on! Ahaa ah aha!
You just keep on you just keep on you just keep on

SUPERNATURAL

Sail out on to the sea through your eyes into eternity
Got one life, find out what it's like to feel
This one high that is true and supernatural

What am I always running from?
Well I'm not running anymore
Now I can feel all your love
Now I can feel we are one and supernatural
Fill the sky with love fill the sky with love
Fill the sky with love and love and love forever
Fill the sky with love
Fill the sky with love and love and love forever

I recognise in you something I have got too
Makes me smile just to watch you do what you do
And I know that what I see is not just happening to me
There's something in your eyes I can tell

So let's sail out on to the sea through your eyes into eternity
Got one life, find out what it's like to feel
This one high that is true and supernatural

What am I always running from?
Well I'm not running anymore, no I'm not running anymore
Now I can feel all your love
Now I can feel we are one, we are one and supernatural

Fill the sky with love fill the sky with love
Fill the sky with love and love and love forever
Fill the sky with love fill the sky with love
Fill the sky with love and love and love forever
Love and love and love forever
Love and love and love forever

Been doing all my work! Each day I'm getting stronger!
The things that used to hurt, I burnt them off my shoulders!
Some day we're gonna go back in to the trees
And you will be my love and my lover you will be me

Been doing all my work! Each day I'm getting stronger!
The things that used to hurt, I burnt them off my shoulders!
Some day we're gonna go back in to the trees
And you will be my love and my lover, and my lover, my lover you will be me

Sail out on to the sea through your eyes into eternity
Got one life, find out what it's like to feel
This one high that is true and supernatural
